

How to enrich leads with email or phone

How to enrich leads with email or phone:

- 1 Go to the list of leads you want to enrich > select **Enrich all** (above the first column).
- 2 If you only want to enrich some of them, select them by clicking on their checkbox on the left before clicking on **Enrich**
- 3 Select **Enrich phone and email address** to search for phone and email or **Enrich email address** to search for email only.

💡 The fields that will be enriched are:

- **Mobile Phone:** main phone
- **Phones:** other phones
- **Professional email:** main email
- **Other emails:** other emails
