

View of the List section

1. Contacts List Section

📈 Dashboard elements: **You can filter by:** Name - Identity - Tags

- 🖊 **Name:** Indicates the name of the list that groups contacts with something in common.
- 💬 **Contacts:** Total number of contacts in the list.
- 📁 **Tags:** Classification of the lists using keywords.
- 🚙 **Creator:** User or identity that created the list.
- ⏱ **Last Update:** When the list was last updated.
- 🏢 **Companies:** Number of companies associated with the contacts.

⚠️ **Nota:** Si quieres ver 🏢 cuáles son las companies asociadas a esta lista de contacts has de hacer clic aquí 👉. Se abrirá una lista **COMPANIES** asociadas a esta lista de **CONTACTS**.

Question: Why are there more contacts than companies in the lists?

Answer: Because multiple contacts can be associated with the same company, representing different people within the same organization.

2. Companies List Section

📋 Elementos del dashboard:

You can filter by: Name - Identity - Tags

- 🖊 **Name:** Indicates the name of the list that groups companies.
- 🏢 **Companies:** Total number of companies in the list.
- 📁 **Tags:** Classification of the lists using tags.
- 🚙 **Creator:** User or identity that created the list (in this case, Bruno).
- ⏱ **Last Update:** The date the list was last updated.
- 💬 **Contacts:** Number of contacts linked to the companies.

⚠️ **Note:** If you want to see 💬 the contacts associated with this list of companies, click here 👉. A list of **CONTACTS** linked to this list of **COMPANIES** will open.

Question: Why are there more companies than contacts?

Answer: Because not all companies have contacts associated yet, either because no contacts have been added or no people have been linked to the companies.

Question: Why are there fewer companies than contacts?

Answer: Because multiple contacts can be associated with the same company, meaning one company can have many related people.
